September

200 Holographic optics: B H Woodcock
205 Security applications of holography: S J S Brown
212 Office automation: P J Coen
218 The physics of space tubes: M Williamson
225 Emigrés in science and technology transfer: P K Hoch

Editorial: Schools – industry links 199
Conference reports 230 *Book reviews* 234
Talking point 237

November

245 Rapid isothermal processing of silicon wafers: S S Gill
254 MOS device modelling for silicon integrated circuits: P J Mole
260 Modelling physical processes in silicon integrated circuit fabrication: D J Godfrey
265 History of Sira: T P Flanagan

Editorial: Private sector funding of research 243
